

Oleksandr Burdun - CTO Resume

Summary

Engineering leader with a track record of building and scaling organizations, delivery systems, and processes. Grew a front-end department from a single developer into roughly 50 people over two years, operating via multiple cross-functional, self-managed agile teams and reducing onboarding time from weeks to days.

Recent leadership at Playtika includes managing a 12-person cross-functional team to deliver a full game clone and redesign from scratch to global launch in five months, and serving as a “local architect” for a large Match-3 title while mentoring and consulting 10+ engineers across multiple feature teams.

Aligns technology choices with business outcomes: re-architected monetization to a backend-driven model with version control and rollback, improved CI/CD pipelines, and delivered complex UX/UI reskins while maintaining legacy compatibility.

Cross-functional operator who collaborates with art, QA, analytics, and LiveOps. Background includes formal Scrum certification and structured process modeling (IDEF0/IDEF3). Contributes to AI-assisted development and related automation initiatives as a hands-on advocate when it unblocks execution.

Experience

Playtika - Kyiv, Ukraine (Hybrid)

Full-time · 2 yrs 5 mos

Group Manager Mar 2025 - Jan 2026 · 11 mos

- Led a 12-person cross-functional team and delivered a full game clone and redesign from scratch to global launch in five months (April-September).
- Oversaw all development stages from technical setup and design adaptation to live-ops readiness.
- Delivered a complete reskin and gameplay adaptation, integrating new UX/UI while maintaining compatibility with legacy systems.
- Implemented a new tutorial framework from the ground up, improving onboarding metrics and content flexibility.
- Participated actively in a cross-team initiative on AI-driven automation for dynamic content generation, contributing from the game team side to align production workflows with generative tooling.
- Coordinated with external departments (art, QA, analytics, LiveOps) to maintain velocity and quality under tight deadlines.
- Skills: TypeScript, Java, TeamCity, Team Leadership, AI-Assisted Development

Technical Lead Sep 2023 - Mar 2025 · 1 yr 7 mos

- Led technical direction and architecture of a large-scale Match-3 title; mentored and consulted a group of 10+ engineers across multiple feature teams as a “local architect.”
- Owned system design, code quality, and long-term maintainability for the client and service boundaries.
- Refactored the entire monetization system from in-app JSON configurations to a fully configurable backend-driven solution with version control, rollback, and dynamic economy updates via a custom back-office.
- Drove multiple complex feature launches while aligning client-side Unity code and backend microservices.
- Contributed as one of several internal advocates for AI adoption, helping introduce AI-assisted tooling into development workflows.
- Improved CI/CD pipelines in TeamCity to accelerate build validation and deployment.
- Skills: Unity, Java, Jenkins, TeamCity, AI-Assisted Development

Education Studios - Kyiv, Ukraine (Remote)

Senior Software Developer Apr 2022 - Jul 2023 · 1 yr 4 mos

- Worked on an iOS-only 3D platformer/metroidvania title, covering project architecture, character systems, and world development.
- Built gameplay scripts and systems used by game design for physics, effects, and particles.
- Implemented VFX Graph and Particle System features, several Burst-based components, and CI/CD using Unity Cloud, Bash, and GitHub Actions.
- Skills: Unity, iOS Development, Software Architecture, Visual Effects, Particle Effects, Continuous Integration and Continuous Delivery (CI/CD)

Funzy Games - Kyiv, Ukraine

Senior Software Developer Aug 2021 - Apr 2022 · 9 mos

- Developed new bubble types with distinct gameplay behaviors for a bubble shooter title; refactored several complex legacy implementations.
- Introduced broader architecture improvements to accommodate new mechanics.
- Skills: Unity, iOS Development, Android Development, Software Architecture, Continuous Integration and Continuous Delivery (CI/CD)

Playtika - Kyiv, Ukraine

6 years 2 months

Frontend Department Tech Lead Feb 2017 - Aug 2019 · 2 yrs 7 mos

- Organized the front-end development function in Kyiv from scratch-starting as the only developer-and grew it to roughly 50 people.
- Established multiple cross-functional, self-managed agile teams; reduced onboarding time from 3-8 weeks to 2-3 days compared with similar departments in the company.
- Skills: Xamarin, .NET, C#, Java, CI/CD, Native Android Development, Native iOS Development

Project Team Lead May 2015 - Feb 2017 · 1 yr 10 mos

- Led the Dice Legends project from scratch; built and launched to the Android market with a team of five.
- Tested and introduced architectural solutions later scaled across Playtika infrastructure (e.g., a microservices solution using Docker containers).
- Skills: Unity 3D, .NET, C#, Java, CI/CD, Native Android Development, Native iOS Development

Senior Software Developer Jul 2013 - May 2015 · 1 yr 11 mos

- Started as an AS3 developer; contributed to the launch of a Video Poker plugin inside Caesars Casino.
- Served at several points as a client-side CTO assistant, prototyping ideas and technologies to improve technical and organizational processes.
- Worked independently as a full-stack developer on Farkle Pro, launched on Facebook and adapted for three Russian social networks.
- Skills: AS3, PHP/HTML/JS/CSS, Java, CI/CD (Ant, Maven, TeamCity, etc.)

Early Career

- Go Games Ltd - AS3 Developer (May 2012 - Jun 2013, Kyiv)
 - Worked on a live “Go Fishing” title and two additional projects (unsuccessful launches); contributed to gameplay features including fishing rod implementation.
 - Skills: AS3, C#/ASP.NET, MSSQL, MongoDB, Photoshop, Flash Editor Scripting
- Addicted - AS3 Developer (Aug 2011 - May 2012, Ryazan, Russia)
 - Built social city-builder games for Facebook, VKontakte, and Odnoklassniki as part of a four-person team; one game launched from scratch.
 - Skills: AS3, Python, SQL, MongoDB, Redis, Debian/Ubuntu Administration
- Freelance - AS3 Developer (Nov 2008 - 2012, Kyiv)

- Early career foundation in development and ad-hoc coordination: assembled small teams and acted as a bridge between customers and developers.
- Skills: AS3, PHP/HTML/JS/CSS
- New Project - Project Manager (Nov 2007 - Nov 2008, Kyiv)
 - Led ERP implementation; formalized business processes using IDEF0 and IDEF3.
 - Skills: Project Management, ERP Implementation, Business Process Modeling (IDEF0, IDEF3)
- ExpertSoft - Sales Manager; Consultant; Project Manager (Aug 2006 - Nov 2007, Kyiv)
 - Delivered systems and consulting for auto parts retail and vehicle service operations, including an official Mazda dealer.
 - Skills: Sales, Project Management, ERP/Business Systems, Automotive Retail & Service

Skills

- Leadership & Operations
 - Team Leadership; Project Management; Department growth and organization (1 □ ~50); Cross-functional coordination (art, QA, analytics, LiveOps); Scrum (certified)
- Architecture & Systems
 - Software Architecture; Microservices; Docker; System design for mobile games; Back-office-driven configuration
- Game Tech & Platforms
 - Unity, Unity 3D; iOS Development; Android Development; Visual Effects; Particle Effects; VFX Graph; Burst
- Programming Languages & Frameworks
 - C#; Java; TypeScript; AS3; PHP/HTML/JS/CSS; Python; Go
- CI/CD & Tooling
 - CI/CD; TeamCity; Jenkins; Unity Cloud; GitHub Actions; Bash
- AI & Automation
 - AI-Assisted Development; Multi-agent systems; RAG; MCP; ACP
- Process & Modeling
 - Business Process Modeling (IDEF0, IDEF3); UML-like representations; Financial modeling (coursework)
