

Oleksandr Burdun - Tech Lead Resume

Summary

Hands-on technical leader and “local architect” who steers system design, code quality, and long-term maintainability for complex game products. Mentored and consulted 10+ engineers across multiple feature teams and led a 12-person cross-functional team to ship a full game clone and redesign to global launch in 5 months.

Drives end-to-end delivery across client (Unity), backend services, tooling, and release workflows. Notable work includes refactoring a large-scale monetization system to a backend-driven model with version control, rollbacks, and a custom back-office.

Pragmatic about architecture and execution: raises the bar through refactoring, CI/CD improvements (TeamCity, Unity Cloud, GitHub Actions), and alignment between client and microservices. Comfortable coordinating with art, QA, analytics, and LiveOps under tight deadlines.

Consistently contributes to adoption of AI-assisted development and generative tooling where it materially improves engineering velocity and content workflows.

Experience

Playtika - Kyiv, Ukraine (Hybrid)

Full-time · 2 yrs 5 mos

Group Manager Mar 2025 - Jan 2026 · 11 mos

- Led a 12-person cross-functional team to deliver a full game clone and redesign from scratch to global launch in 5 months, overseeing technical setup, design adaptation, and live-ops readiness.
- Shipped a complete reskin and gameplay adaptation while maintaining compatibility with legacy systems.
- Implemented a new tutorial framework from the ground up, improving onboarding metrics and content flexibility.
- Coordinated closely with art, QA, analytics, and LiveOps to sustain velocity and quality under tight deadlines.
- Participated in a cross-team initiative on AI-driven automation for dynamic content generation, aligning production workflows with generative tooling.
- Skills: TypeScript; Java; TeamCity; Team Leadership; AI-Assisted Development

Technical Lead Sep 2023 - Mar 2025 · 1 yr 7 mos

- Led technical direction and architecture for a large-scale Match-3 title; mentored and consulted a group of 10+ engineers across multiple feature teams as a local architect responsible for design, code quality, and maintainability.
- Refactored the entire monetization system from in-app JSON configs to a backend-driven solution with version control, rollback support, and dynamic economy updates via a custom back-office.
- Drove multiple complex feature launches by aligning client-side Unity code with backend microservices.
- Improved CI/CD pipelines in TeamCity for faster build validation and deployment.
- Contributed as one of several internal advocates for AI adoption, introducing AI-assisted tooling into development workflows.
- Skills: Unity; Java; Jenkins; TeamCity; AI-Assisted Development

Education Studios - Kyiv, Ukraine (Remote)

Senior Software Developer Apr 2022 - Jul 2023 · 1 yr 4 mos

- Contributed to an iOS-only 3D platformer/metroidvania across project architecture, character development, world building, and gameplay scripting (physics, effects, particles).
- Worked with VFX Graph, Particle System, and several Burst-based features.
- Set up CI/CD using Unity Cloud, Bash, and GitHub Actions.

- Skills: Unity; iOS Development; Software Architecture; Visual Effects; Particle Effects; Continuous Integration and Continuous Delivery (CI/CD)

Funzy Games - Kyiv, Ukraine

Senior Software Developer Aug 2021 - Apr 2022 · 9 mos

- Implemented new bubble types with unique gameplay behavior for a bubble shooter; refactored complex existing implementations as new mechanics exposed architectural limits.
- Introduced broader architectural improvements across the system.
- Skills: Unity; iOS Development; Android Development; Software Architecture; Continuous Integration and Continuous Delivery (CI/CD)

Playtika - Kyiv, Ukraine

6 years 2 months

Frontend Department Tech Lead Feb 2017 - Aug 2019 · 2 yrs 7 mos

- Organized the Kyiv front-end department from scratch; grew from a single developer to roughly 50 people across multiple self-managed agile teams.
- Reduced onboarding time for newcomers to 2-3 days (vs. 3-8 weeks in similar departments).
- Skills: Xamarin; .NET; C#; Java; CI/CD; Native Android Development; Native iOS Development

Project Team Lead May 2015 - Feb 2017 · 1 yr 10 mos

- Led the Dice Legends project from scratch and launched it to the Android market with a team of 5.
- Tested and introduced architectural solutions later scaled across Playtika infrastructure (e.g., a microservices solution using Docker containers).
- Skills: Unity 3D; .NET; C#; Java; CI/CD; Native Android Development; Native iOS Development

Senior Software Developer Jul 2013 - May 2015 · 1 yr 11 mos

- Started as an AS3 developer; contributed to launching a Video Poker plugin inside Caesars Casino.
- At several points worked as a client-side CTO assistant, prototyping ideas and technologies to improve technical and organizational processes.
- Independently worked as a full-stack developer on Farkle Pro (launched on Facebook and adapted for three Russian social networks).
- Skills: AS3; PHP/HTML/JS/CSS; Java; CI/CD (Ant, Maven, TeamCity, etc.)

Early Career

- Go Games Ltd - Kyiv, Ukraine | AS3 Developer | May 2012 - Jun 2013 · 1 yr 2 mos
 - Worked on Go Fishing (live game, including fishing rod implementation); contributed to two additional initiatives.
 - Skills: AS3; C#/ASP.NET (backend, web and offline tools); MSSQL; MongoDB; Photoshop; Flash Editor Scripting
- Addicted - Ryazan, Russia | AS3 Developer | Aug 2011 - May 2012 · 10 mos
 - Built and launched a social city-builder with a four-person team for Facebook/VK/Odnoklassniki; also contributed as a freelancer before joining full-time.
 - Skills: AS3; Python; SQL; MongoDB; Redis; Debian (Ubuntu) Administration
- Freelance - Kyiv, Ukraine | AS3 Developer | Nov 2008 - 2012 · 4 yrs
 - Early career development work; often coordinated larger projects and served as the communication bridge between customers and dev teams.
 - Skills: AS3; PHP/HTML/JS/CSS
- New Project - Kyiv, Ukraine | Project Manager | Nov 2007 - Nov 2008 · 1 yr 1 mo
 - Led ERP implementation and formalized business processes using IDEF0 and IDEF3.

- ExpertSoft - Kyiv, Ukraine | Consultant / Project Manager / Sales Manager | Aug 2006 - Nov 2007 · 1 yr 4 mos total
 - Delivered and supported business systems for auto parts and service (official Mazda dealer and others); earlier sold related solutions.

Skills

- Architecture & Leadership
 - Software Architecture; Team Leadership
- Game Engineering
 - Unity; Unity 3D; VFX Graph; Particle System; Burst-based features
- Programming & Client
 - C#; Java; TypeScript; AS3; PHP/HTML/JS/CSS; Xamarin
- Mobile
 - iOS Development; Android Development; Native iOS Development; Native Android Development
- Backend & Infrastructure
 - .NET; Microservices (Docker containers)
- CI/CD & Tooling
 - TeamCity; Jenkins; Unity Cloud; GitHub Actions; Bash; Continuous Integration and Continuous Delivery (CI/CD)
- Data & Storage
 - MSSQL; MongoDB; Redis
- AI
 - AI-Assisted Development; Generative tooling integration (content workflows)
- Process & Modeling
 - ERP Implementation; Business Process Modeling (IDEF0, IDEF3)
